

Swimming Pool Risk Assessment

- Areas around the swimming pool can become wet and slippery, please be careful and do not run.
- The pool may only be used at guests own risk and strict adherence to the pool rules, which are clearly displayed. If the guests ignore the rules an injury may occur.
- Guests are asked to be extra careful if the pool house kitchen/wet room are used when the floor is slippery after using the pool, particularly when using the hob and oven which will be hot if used.
- When using the outdoor swimming pool there is a risk of sunburn if not protected, guest should wear appropriate sun protection, and are advised to avoid the midday sun.
- Guests should also avoid using the swimming pool during adverse weather conditions, including poor light and lightning storms.
- An adult should be present at all times when the swimming pool is in use and should be able to see the whole pool without obstructions.
- Please avoid using the pool after dusk when the light is dwindling.
- Before using the swimming pool please familiarise yourself and other guests with its layout, including the depths, which are clearly marked and any safety instructions.
- No diving or jumping into the pool.
- Guests are asked to not use any glasses or crockery by the swimming pool. Suitable plastic alternatives are provided in the pool house kitchen.
- Any guests under 18 must be supervised at all times.
- No dogs in the pool.
- Ensure the swimming pool cover is replaced at the end of each day.
- At least one suitably experienced swimmer should be present at any time when the swimming pool is being used.
- Do not use the swimming pool if you have the influenza, open wounds or warts.
- Only wear a swimming suit in the pool not shorts or other clothing.
- Always shower prior to and after using the swimming pool.
- If toddlers use the swimming pool they must wear water-proof nappies.
- Avoid swimming under water whilst holding your breath, especially after hyperventilating.
- The door to the side of the pool house is locked. Please do not attempt to enter as this room contains the pool chemicals, which could cause harm if touched or ingested.
